Peter de Boer, BoD Member & IR Manager, DN AGRAR:

"Our continued commitment towards transparency, corporate governance, as well as to effective and proactive communication with investors, is also highlighted by

joining the ARIR community. The listing was an important step for us, we have constantly improved our operations, being them structural or related to communication, and we continue to develop. Two years after listing our shares were included in the MSCI indices, we tripled the size of our business and we aim to double it in the next four years through operational efficiencies and the development of new projects.”

Daniela Maior (Șerban), President and Co-founder, ARIR:

„The ARIR community is also becoming more relevant for issuers present in the AeRO market, more and more listed companies recognizing the importance of a proactive voice for the development of the investor relations field. ARIR is dedicated to setting the best practices for listed companies, and this year, for the second time, took place the evaluation of companies from the AeRO market, according to VEKTOR by ARIR indicator. Recently, ARIR became part of the group that reviews the Corporate Governance Code and we have been involved in more and more advocacy initiatives to strengthen and develop the local capital market.”
